Final Report

The Executive Council of the Islamic Educational, Scientific and Cultural Organization -ISESCO- held its twelfth session in Rabat, Capital City of the Kingdom of Morocco, from 11 to 17 Jumada I 1412 H (19-25 November, 1991). This session was attended by all members of the Council with the exception of the representative of Malaysia (see Annex 1: List of Executive Council members).

Inaugural Session: Tuesday morning, 11 Jumada I 1412H / 19 November, 1991

1- The inaugural session was presided over by His Excellency Dr Taëb Chkili, Minister of Education and Chairman of the Moroccan National Commission for Education, Culture and Science in the Kingdom of Morocco. Attending the inaugural session were representatives of the Government of the Kingdom of Morocco, the members of the Islamic Diplomatic Corps accredited to Rabat, as well as representatives of a number of international and regional organizations and a host of intellectuals.

2- Following the recitation of verses from the Holy Qur'an, His Excellency Professor Abdulaziz bin Abdullah bin Sulayman Al-Fadhel, representative of the Kingdom of Saudi Arabia and Chairman of current session of the Executive Council, delivered an address in which he thanked His Excellency Dr Taëb Chkili, Minister of Education in the Kingdom of Morocco, for opening the proceedings of this session and welcomed Council members and guests.

He also commended ISESCO's achievements, the programmes it implemented and the contacts and relations it established with regional and international organizations. He expressed thanks and appreciation to His Excellency the Director General, the distinguished Deputy Directors General and all staff members for the distinct and sustained efforts they expended and which helped ISESCO achieve its objectives and implement its programmes. He indicated that the full success we aspired for depended on ISESCO's Member States rather than on the General Directorate, particularly that many Member States had not yet honoured their comments toward ISESCO.

His Excellency the Minister indicated that ISESCO's positive achievement raised hopes for brighter future prospects. He pointed out the transitional character of this session, commended the efforts made by the honourable Council members within the framework of their duties, and lauded the spirit of constructive cooperation characterizing relations between

the Council and the General Directorate, a fact which made its task easier on several levels. He regretted the decision of H.E. Professor Abdelhadi Boutaleb not to stand for another term of office, commending his invaluable efforts and considerable contribution to the establishment and consolidation of ISESCO (See Annex 2, Address by H.E. the Chairman of the Executive Council).

3- H.E. Dr Taëb Chkili, Minister of Education and Chairman of the Moroccan National Commission for Education, Culture and Science in the Kingdom of Morocco, then delivered the opening address, in which he first welcomed the participating delegations and commended the achievements of ISESCO since its inception. He praised the efforts of ISESCO's Director General and his assistants, who managed to overcome all the obstacles confronting the Organization, thereby securing for the latter a distinguished international status. He pointed out that what held in the context of successive international changes and that the Ummah had to consolidate its position to be able to confront these changes.

His Excellency the Minister stated that the Kingdom of Morocco had decided not to nominate a candidate to the post of Director General to succeed the current Director General in order to enable other Member States to assume this mission on the basis of rotation which is the very foundation of mutual cooperation.

Concluding his statement, His Excellency the Minister reaffirmed the attention paid to ISESCO by the Government of His Majesty Hassan II, King of Morocco, its care for ISESCO's interests, and the continued moral and material support extended to it so as to enable it to fulfill the mission for which it was established (See Annex 3, Address by H.E. the Minister of National Education in the Government of the Kingdom of Morocco).

4- His Excellency Professor Abdelhadi Boutaleb, Director General of ISESCO, then delivered a speech in which he first pointed out the importance of setting up the Islamic Organization as well as the civilizational and cultural role it played in accordance with the guidelines set by Muslim leaders. He recalled some of the obstacles which hindered ISESCO's work, and pointed out the new slackness and lukewarm attitude of some ISESCO founding members towards the Islamic Organization, after they had been very enthusiastic about its inception. He explained that this was due to the duality characterizing the situation of the Islamic world in terms of training, thinking and interests. He indicated that the only way out was through the emergence of a new intellectual revival which would be based on the past, impregnated with the spirit of the present age and committed to the sound training of future generations.

His Excellency the Director General declared that he had decided not to stand for another term of office to avoid setting a precedent that would limit Member States' desire for change and in order to allow for injection new blood. He thanked everyone for their encouragement throughout his term of office.

His Excellency the Director General then indicated that the major axes around which ISESCO's Action Plans had revolved since its establishment were aimed at reviving interest in the notion of the Ummah as a community with a distinctive heritage, special cultural features and an everlasting mission; developing skills and aptitudes at national level in every Member State in the educational, scientific and cultural fields;; providing information on the Islamic world both within and outside it, and asserting the presence of Islam as a civilizational and cultural entity with rights and duties within the international community (See Annex 4, Address by H.E. the Director General).

Item 2.1: Report of the Director General on the Organization's activities between the Eleventh and Twelfth Sessions.

6- The Director General gave a brief summary of his report on the Organization's activities between the Eleventh and Twelfth Sessions. He emphasized the fact that the current session was being held at a crucial stage as regards the future of the Organization and pointed out that the situation was characterized by both positive and negative aspects. Among the former, he indicated that 70% of the programmes and activities pertaining to the current Three-Year Action Plan had been implemented notwithstanding the financial difficulties, in addition to the launching of two integrated Action Plans, namely the 1991-1994 Three-Year Action Plan and the first Medium-Term Plan 1991-2000. Similarly, the revision of the Organization's Charter and internal regulations has been completed. That made it possible for the Organization to become an efficient body at international level and thus ensure continuous Islamic presence at world level.

Among the negative aspects, His Excellency the Director General referred to two major ones. The first was the negative impact of the Gulf crisis in international Islamic action. The second was the overlapping that still existed between the constitutional prerogatives of the Organization, on the one hand, and the action undertaken in the Organization's fields of competence by the OIC General Secretariat and some of its subsidiary bodies, on the other.

His Excellency the Director General pointed out the Organization's achievements within the framework of the current Plan, according to the priorities advocated by both the Executive Council and the General Conference and in keeping with the efficient rationalization policy applied by the Organization. He pointed out that priority in the field of education was granted to the major programmes on Islamic education, Arabic language, literacy and adult education, with special emphasis on the activities related to training, writing and publishing in those fields. In the field of science, priority was given to a number of major targets such as development of science teaching, promotion of scientific research, intensification of contacts and enhancement of cooperation among Muslim scientists, in addition to development of trained scientific manpower and popularization of science. In the cultural field, programme implementation revolved around four objectives: enhancement of

Islamic culture civilizational heritage, promotion of Islamic cultural institutions and centres, and protection of the Islamic society from alien cultural invasion and moral deviation.

8- The distinguished members of the Council then took the floor and made the following observations:

- The report should include, in the future, the budget allocated to each program, together with an expenditure sheet after implementation.

- The programmes should bear the official titles as adopted by the higher bodies of the Organization.
- The Organization should dispatch drafts of the books intended for publication to the Member States for comments thereon on order to be taken into consideration.
- The Organization should benefit from the experience of similar organizations operating in the same fields of competence, such as ALECSO and ABEGS, particularly in the preparation of textbooks for teaching Arabic to non-Arabic speakers.
- The Organization should direct training programmes in its action plans in favour of training staff instead of teachers, in order to meet the actual needs of Member States and Islamic communities, particularly that approach is more effective.
- The Organization should exert further efforts in publishing simplified booklets on Islamic rites in its three working languages.

- The report of the General Directorate should include, in the future, detailed lists of the scholarships granted and of the recipients.

- ISESCO should step up its cooperation with specialized organizations, be they Arab, Islamic or similar international organizations.
- ISESCO should provide Muslim scholars and researchers with the opportunity to benefit from the data available at the Islamic Information and Data Bank (BIDI) at ISESCO's headquarters through subscription and telecommunication.

He then described the progress made by ISESCO under his leadership in terms of achievements about which he said that although they fell short of legitimate aspirations to reach loftier heights, they nevertheless represented the collective efforts of ISESCO through a homogeneous work team that made unstinted contributions.

Third Working Session: Wednesday morning, 12 Jumada I 1412H / 20 November, 1991

Item 2.1: Report of the Director General on the Organization's activities between the eleventh and Twelfth Council Sessions

Document C.E 12/91/2.1

10- The Council resumed discussion of this item and heard the clarifications provided by the Deputy Directors General and the officials in charge of the Organization's various Services in the light of the comments and questions raised by Council members with regard to the quantity and quality of the programmes implemented by the three Sectors as indicated in the presentations made during the precious working session.

The Organization's officials stated that the Gulf crisis, which brought about a drop in the financial resources which stood at a mere 14% for financial year 1990-1991, was the main reason behind the failure to implement some programmes in full or in part.

The Council then decided to adopt the Director General's report, taking into account the comments made by Council members:

Item 2.2: Director General's Financial Report and Closing Accounts for financial Year 1990-1991

Item 2.3: Reports of the Financial Control Committee and of the Audit Company for Financial Year 1990-1991.

Document C.E 12/91/2.3

11- Mr. Az-El-Arab Kettani, Head of the Administrative and Financial Affairs Service, presented a brief summary of the Financial Report and Closing Accounts for financial year

1990-1991. in this presentation, he indicated the figures concerning the overall income and expenditures for the said financial year and made the following remarks:

- Overall income consisting of the contributions received for financial year 1990-1991 stood at US\$ 2,404,004.65, broken down as follows:

- * US\$ 1,395,293.50 for financial year 1990-1991, representing 14.18% of the budget. The remaining sum represents part of the arrears for previous financial years.

Funds raised in addition to Member states' contributions were as follows:

- * US\$ 47,000 in the form of special allocations donated by the State of Qatar to cover the costs incurred for the assignment of two professors within the framework of the Programme of Teaching Arabic to non-Arabic speakers as well as by the contributions of member-universities in the Federation of the Universities of the Islamic World.

- * US\$ 602,410.52 accruing from bank proceeds and other earnings.

- * Expenditure amounted to US\$ 4,113,300.42, 72% of which were earmarked for programme implementation while the remaining 28% covered operating expenses, equipment costs and staff salaries.

- * The contributions received for financial year 1990-1991 dropped by 44.99% against those of the preceding year 1989-1991.

Only six Member States settled their contributions for financial year 1990-1991: the Hashemite Kingdom of Jordan, the State of Bahrain, the Kingdom of Saudi Arabia, the Republic of Senegal, the Kingdom of Morocco and the Arab Republic of Egypt, (some other States settled their contributions later, in part or in full, namely the United Arab Emirates, the Islamic Republic of Pakistan, the Syrian Arab Republic, the Republic of the Gambia, the Great Socialist People's Libyan Arab Jamahiriya, Malaysia and the Republic of Yemen).

- The total amount of contributions received by the Organization under the Three-Year Action Plan stood at 6,257,39616, or 22% of the overall budget adopted for that period, to which were added the arrears settled during that same period. Thus the total income received from contributions amounted to US\$ 11,537,106.49.

- Expenditure under the Three-Year Action Plan stood at US\$ 12,440,305.29.

- 74% of this amount was spent on programme implementation during the period covered by the Three-Year Plan, while the remaining 26% went to other budget headings.

- As a result of its rational spending policy, the Organization managed to maintain its Reserve Fund and to make only partial use of its financial proceeds from the previous year to cover some expenses estimated at 30% of total spending.

12- Mrs. Aïssatou N'Diaye, Chairperson of the Financial Control Committee, summed up the Report of the Financial Control Committee and that of the Audit Company (Document CE 12/91/2.3). as regards accounts, Committee members proposed that accounting operations should be kept in US dollars rather than in Moroccan dirhams, particularly that the most important operations of Organization are expressed in US dollars. This would preclude considerable exchange losses. She praised the General Directorate for investing part of the

revenues of the Organization for financial year 1990-1991. she also recommended that the budget be drawn up in the light of the actual receipts of the Organization. As regards expenditure, Mrs. Aïssatou N'Diaye indicated that staff expenditures rose by 28% owing to the fact that all staff members had received an overall 10% salary increase and in view of the appointment of 9 new experts and specialists. Expenditure incurred for the implementation of programmes represented 70% of the Organization's budget for financial year 1990-1991, that is to say an 8% drop compared to the previous year. This was due to a shortfall in receipts from Member States. She called for a mechanism that would determine priorities for the implementation of programmes, in the light of the revenues of the Organization and the need. As regards operating costs, the Chairperson of the Committee commended the computerization of the Organization's daily accounting, and recommended the establishment of an Accounting Service and turning the Administrative and Financial Affairs Service into a Directorate to improve accounting operations. She also wondered about the latest developments as regards the Headquarters Agreement, which had not yet been published in the Moroccan official gazette.

13- Mr. Farouk Tawfik Ibrahim, Rapporteur of the Financial Control Committee, made a presentation, highlighting the observations made by the Committee on the implementation of the overall receipts of the Organization during that period had amounted to 42% of budget estimates, but still fell short of the required level, although they were higher than the receipts of the Organization for the previous three-year period 1985-1988, which had not exceeded 33%. He praised the General Directorate for the measures it had taken to benefit from available funds by depositing them in deposit bank accounts, in addition to the increase in the resources of the End-of-Service Allowance Fund by 131%. He then informed the Council of the amounts spent on programmes during the Organization's 1988-1991 Action Plan, distributed as follows:

- 42% for the Education Sector, with a total of 37 programmes,
- 35% for the Science Sector, with a total of 18 programmes,
- 40% for the Culture Sector, with a total of 24 programmes.

14- Council members sought clarifications and made the following observations:

- to take into consideration the observations and recommendations contained in the reports of the Financial Control Committee and the Audit Company (Doc. CE 12/91/2.3);
- to turn the Administrative and Financial Affairs Service into a Directorate;
- to implement some of the Organization's programmes in local currency in some Member states which could not settle their contributions in hard currency;
- to follow up the measures taken to sign the Headquarters Agreement and publish it in the official gazette.

The Director General and his assistants then gave the necessary clarifications to the observations and queries raised.

15- The Executive Council then adopted the Financial Report and Closing Accounts for financial year 1990-1991, as presented in Document CE12/91/2.2, as well as the reports of the Financial Control committee and Audit Company for financial year 1990-1991, as presented

in Document CE12/91/2.3, provided that the recommendation concerning the turning of the Administrative and Financial Affairs Service into a Directorate be submitted for consideration to the Committee in charge of the Organizational Chart:

16- The Council, having considered this item and heard the explanations provided by the Director General and his assistants on issues raised by Council members, especially as regards the most effective means likely to enable Member States to settle their arrears or their contributions to the Organization's budget, in particular the proposal aimed at enabling Member States which lacked the means to settle their arrears in hard currency, to do so in local currency, by means of implementing some programmes in the said countries, the Council requested the Director General to consider possible solutions in this connection and to submit them for consideration to the following session of the Council. The Council then adopted the report of the Director General on the situation of Member States' contribution, as presented in Document CE12/91/2.4:

**Decision on Item 2.4

Item 5.6.1: Storming by the Israeli occupation forces of the Shar'ia Court in Al-Quds Al-Sharif.

17- Having taken cognizance of the news about the stealing of the documents deposited with the Shar'ia Court of Al-Quds Al-Sharif, the Council decided to issue a Communiqué in this grave Israeli aggression, in which it condemned the judaization and destruction of Islamic landmarks in Palestine and Al-Quds Al-Sharif, and appealed to the international community to take the measures needed to protect the Palestinian people. It also extended a special appeal to His Majesty King Hassan II, Chairman of Al-Quds Committee, requesting His Majesty to continue his commendable endeavours to address this issue:

**Communiqué of the Executive Council
of the Islamic Educational, Scientific and Cultural Organization**

The Executive Council has closely followed the news published by international press agencies about the storming of the Shar'ia Court in Al-Quds Al-Sharif, capital of the occupied State of Palestine by the occupation authorities, and the breaking into its premises and stealing of the historical records deposited with the Court, concerning the properties of the Islamic Waqf and transactions as regards buildings, real estate and lands, the aim being to obliterate the identify of their original owners.

This Israeli aggression against one of the symbols of the Islamic identity of Al-Quds Al-Sharif seeks primarily to submit Al-Quds to judaization as a first step towards confiscating further Palestinian lands with a view to constructing settlements.

The Executive Council therefore appeals on behalf of the entire Islamic Ummah, represented by the Islamic Educational, Scientific and Cultural Organization, to the United Nations to fully bear its responsibilities in safeguarding the Palestinian properties, real estate and lands against aggression and ensuring their safety, through taking th security measures needed to protect the Palestinians people, their scientific, educational and judiciary institutions as well as their places of worship.

The Council commends the endeavours of His Majesty King Hassan II, Chairman of Al-Quds Committee, with the American Administration in this connection, and appeals to His Majesty to pursue his endeavours with other parties with a view to compelling Israel to restore the stolen historical records to the Shar'ia Court in Al-Quds Al-Sharif.

The Executive Council calls the attention of the international community to this odious event and requests all international organizations and bodies as well as humanitarian institutions to bring pressure to bear on the occupation authorities to restore the stolen Palestinian documents to the Shar'ia Court in Al-Quds Al-Sharif, in order to safeguard the Islamic character of this holy city.

The Executive Council calls on the international community to organize a world campaign aimed at calling to account the Israeli officials who carried out this nefarious deed, to penalize this criminal aggression, as well as render justice and protect the Palestinian people who were greatly harmed by this dreadful tragedy.

Item 2.5: Assessment of the Organization's work

Document CE12/91/2.5

18- Having taken cognizance of the report of the Director General on the assessment of the Organization's work, and having heard the clarifications provided by the General directorate on the matter, in particular the definition of the concepts needed for the evaluation process, or the setting up of the appropriate mechanism for internal and external evaluation, the Council decided to invite the Director General to submit this report to the fourth General Conference so that it may rule thereon in the light of the Director General's proposals:

**Decision on Item 2.5

Item 3.2: Draft Action Plan and Budget for 1991-1994.

Document C.E 12/91/3.2

20- The Council started discussing the Draft Action Plan and Budget for 1991-1994 as submitted by the Director General in the above-mentioned document, including the amendments and proposals introduced by the Council in its previous session. During the discussion, two main opinions were expressed with respect to the financial aspect of the draft action plan. The first opinion held that the budget should not be drawn up on the basis of resources expected from Member States but on the basis of actual receipts. The other opinion held that the budget should be drawn up on the basis of Member States' obligations towards ISESCO in accordance with its statutory regulations.

After discussion, the Council agreed on the following course: to draw up the budget on the basis of Member States' obligations on the one hand, and to determine the priority of programmes at the time of their implementation so as to face possible shortage of resources, on the other hand, while recommending to the Director General to pursue his efforts to seek extra-budgetary resources.

The Council adopted the Draft Action Plan and Budget for 1991-1994 as set out in Document CE 12/91/3.2 and unanimously approved the budget for it, amounting to US\$ 34,460,813, which equals the amount of the previous budget plus 7% a year to cover inflation:

at obliterating its Islamic identity and judaize it**

The Executive Council,

Recalling, with great awe, the words of the Almighty: "Glory be to God who did take His Servant for a journey by night from the sacred Mosque to Al Masjid Al Aqsa" and the Hadith Al-Sharif of the Prophet: "Prepare to travel to but three masjids: Al Masjid Al Haram, Al Masjid al Aqsa and my Masjid"; calling to mind the covenant of the Caliph Omar Ibn Al Khattab between the Muslims and Christians living in Al-Quds;

Recalling Article 2 of the Charter of the Organization of the Islamic Conference and the objectives of the Islamic Organization –ISESCO- as regards the protection of Islamic culture, heritage and thought against cultural invasion, disfigurement and distortion;

Considering the standing of Al Quds Al Sharif in the conscience of Muslims throughout the world and in respect of mankind;

Deeply aware that the liberation of Al Quds Al Sharif, the safeguarding of its sanctities, the protection of its identity and the preservation of its character and safety are a collective Islamic responsibility and a trust to be honoured by each and every Muslim;

Profoundly deploring the negligence of the international community with respect to the implementation of its numerous resolutions and appeals condemning the Israeli occupation and strongly rejecting the policy of annexation of Al Quds; demanding the withdrawal from the city and from all the territories occupied by Israel since 1967, including Al Quds Al Sharif; seriously preoccupied by the non-compliance with the appeals made by international organizations on abstaining from changing the historical cultural and civilizational landmarks of this city and demanding respect for the sanctity of the religious shrines of Muslims and Christians;

Noting with great sorrow the tragic situation experienced by Al Quds Al Sharif, capital of the occupied State of Palestine, owing to the Israeli occupation, as a result of the escalation of judaization and destruction schemes aimed at obliterating the Islamic civilizational identity of this Holy City;

Strongly condemning the Israeli violations of the Mosques and Holy shrines of Al Quds and of its religious shrines and legitimate institutions;

- 2- Appeals to the international community in general and to Islamic countries, in particular, to express tangibly their total solidarity, in particular through the collection of donations, whether technical or material, to ensure the maintenance and restoration of the ancient historical and religious places of Al Quds in order to safeguard its heritage;

- 5- Calls for the convening of a world seminar grouping Muslims and Christians to secure the protection of the religious institutions in Al Quds;
